DETAILED ACTION

1. Claims 1, 9, 17 have been presented for examination
2. Claims 2-8, 10-16, and 18-24 have been cancelled as per Applicant's request
3. The appeal brief filed on 1/15/2008 has been reviewed and is persuasive.

Reasons for Allowance

Claims 1, 9 and 17 are allowed.

The primary reasons for allowance of claims 1, 9 and 17 in the instant application is that the combination of the prior art Peyravian and Trostle do not teach "the client requests access to the server by sending a first set of values to the server, wherein the first set of values includes a client-generated random value, a large prime number, a primitive root of the large prime number, and the primitive root raised to a power of a large random integer less than the large prime number minus one; wherein the server responds to the client by generating a one-time challenge token that depends at least on a server-generated random value and sending the challenge token to the client, wherein the server generates the challenge token by exclusive-oring the server-generated random value with a first hash, and wherein the first hash is a hash of the primitive root to the large prime number raised to a power, a digest of the client's userid and password, and the client generated random value; wherein the client retrieves the server-generated random value from the challenge token and sends the server-generated random value and the userid to the server; wherein the server verifies the

Art Unit: 2132

received server-generated random value from the client is correct by comparing the server-generated random value received from the client with the server's stored value for the server-generated random number, and if so, the server generates a one-time authentication token and sends it to the client, giving it permission to access the server, wherein the client verifies the validity of the one-time authentication token received from the server" as recited in independent claims 1, 9 and 17. The combination of the references of Peyravian and Trostle do not teach all of these features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
